### Our Mission:

Cryptopia was born as a place where ideas could happen. A place that had no limits, a space where we could bring the community together and share a piece of the world that is changing right before our eyes. As we embark upon our 2nd conference, we know that our community is hungry for the good, the bad, the ugly and the future of all things happening in Crypto and Web3. This year will be no different. We will address the state of Crypto and the ever changing atmosphere that we are living in. Join us for an eventful day of discussion and of course, a little fun.
